SUPPLEMENTAL REISSUE APPLICATION DECLARATION UNDER 37 C.F.R. §1.175

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir:

I, David Marquette, declare that:

1. I am Director of Engineering of Amerigon Incorporated ("the Assignee"), the assignee of the above-captioned application.

2. Amerigon Incorporated is the assignee of the above-captioned application by virtue of an assignment recorded with the U.S. Patent and Trademark Office on March 1, 1994, at Reel No. 006878 and Frame No. 0146.

3. As Director of Engineering, I am authorized to act on behalf of the Assignee.

4. I acknowledge the duty to disclose information which is material to patentability as defined in 37 C.F.R. §1.56.

5. I have reviewed and understand the contents of the above-identified reissue application including the specification, the original claims, the Preliminary Amendment concurrently filed with the reissue application, the Amendment filed on November 11, 2008, the Amendment filed on July 28, 2009, the Amendment filed on October 7, 2009, the Amendment filed on April 7, 2010 and the Amendment filed concurrently with this Supplemental Reissue Declaration.

Application No.: 09/996,439
Filing Date: November 28, 2001

6. Every error in the patent which was corrected in the present reissue application, and is not covered by a prior oath/declaration submitted in this application, arose without any deceptive intention on the part of the applicant.

7. I believe the original patent to be wholly or partly inoperative or invalid by reason of the patentee claiming more than the patentee had a right to claim in the patent. At least one error upon which reissue is based is described as follows: Original Claim 1 did not include the limitation "an air-impermeable barrier on a side of the air subchannel opposite the top surface of the support member." New Claim 39 (which corresponds to original Claim 1) now includes this limitation.

8. Every error corrected in this reissue application through the execution date of this Supplemental Reissue Declaration arose without any deceptive intention on the part of the applicant.

9. I have read and understand the foregoing statements of this Supplemental Reissue Declaration. I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under 18 U.S.C. §1001, and that such willful false statements may jeopardize the validity of the application, any patent issuing thereon, or any patent to which this Supplemental Reissue Declaration.

Full name of Declarant: **David Marquette**

Title: Director of Engineering
